- 2009–2011 **2nd degree in IT**, Lycée Louise Michel(school), Bobigny.

Work Experience

Since january **IT consultant**, Leparisien, 25 Avenue Michelet, Saint-ouen.

2016 I had the opportunity to participate to the developpement of the Parisien new website (between january and june). Our main guidelines for this project was :

- Back and Front : use of the latest web technologies to optimize the website access, availability and lisibility.
 - Symfony2.8, PHPUnit, Elastic Search engine, docker, rabbitMq.
 - Continuous integration with Jenkins
 - Less Technology, some JS new frameworks
- Project management system
 - use of project management softwares (Trello, redmine, Agile method)
 - weekly meeting with project managers.

2012–2015 **Groupe Eyrolles**, 63 Boulevard Saint-Germain, 75005, Paris.

Mission :

- Éditions-Eyrolles website developpement
 - Project management
 - project versioning with GIT plateforme
 - Technical and fonctionnal specifications
 - website developpement(coding)
 - Search engine Optimisation and tracking management with Google analytics
- Eyrolles.com website improvement
 - implementation of Eyrolles.com website Search system with Solr plateforme
 - Création of Solr Core indexation scripts
 - responsive web design implementation
 - SEO improvement
 - CSS improvement
- BackOffice improvement
 - implementation of news modules based on Symfony2
 - crontab management (Debian)
 - code review
 - testing BackOffice and intranet synchronization scripts

2011–2012 **Applications developper**, *Technema*, Othis, Seine et Marne.

Work in a team of 3 application developers. Our job was the implementation of news developpements and the maintenance of desktop application (Malta).It is a transit management application developed with Windev language.
